Sam: yo mofo
me: yo yo
me: how's all?
Sam: i do want to check out your schematic, or whatever you call it
me: cool, I've got some documentation that will describe it
me: actually it's pretty simple
me: and you can have it for free as well as whatever resources we produce
me: since you're probably not evil
me: we've got about 70 people on board so far
me: journalists, bloggers, lawyers, finance people, hackers, etc.
me: I'm having some software designed for use in the schematic
me: very simple, will work across platforms, just a widget
me: also we're launching a charity and a couple other efforts early on
Sam: cool. we are looking into that sort of stuff as well, so i'm curious to see it. got to take call now but please email me the description
me: will do
me: also I'll send you bio and headshot in a bit
